**Project Proposition: MASS TEACHING AND LEARNING PROJECT**

**SIGNATURE RESPONSIBLE : Abbé HABANABASHAKA Jean de Dieu**

**PROJECT REQUEST :**

- 1. Title of the project/project proposition :**

**MASS TEACHING AND LEARNING PROJECT**

- 2. Background information about your school ( 100 words maximum) :**

The GS Gikonko catholique began in 1947 as a Primary School. The school is property of Catholic Church in Butare Diocese, Byiza Parish and located in Gisagara District, Gikonko sector. The school is government aided. In 2012, Twelve Years Basic Education Program has been started with three combinations Mathematics-Economics-Geography, Litterature-French-Kinyarwanda and Mathematics-Computer-Economics. Nowadays the school have 1598 students. Most of students who have studied in GS Gikonko catholique are studying in higher learning institutions all over the country whereas others are working successfully in different areas in Rwanda.

- 3. Problems / Challenges for the school( 150 words maximum ) :**

GS Gikonko catholique has goal of providing quality education, changing school appearance and raising capacity of the school economically. Also, the school has to get a higher number of student's academic performance that will enable students from different areas to have a thirsty of coming to study in this school. On trac of wanting to achieve this goal, the school encounter many challenges. The lack of some infrastructures such as insufficient classrooms, dining room, library and polyvalent room is one among problems, while there is an increasing number of learners. The lack of material for extra-curricula activities is another challenge. The school is also

facing the problem of lacking sufficient ICT equipments while teaching and learning process nowadays in Rwanda is ICT based. School feeding program as government policy is difficult because parents are poor and are not able to pay school fees.

**4. What is your proposition to solve the problem ( 50 words maximum) :**

To solve these problems, the school is trying to work closely with Government, Diocese , parents and other different partners to find the aids for some projects. Apart these aids, there are some projects that require community work in the school where students and teachers contribute a lot.

**5. What is the aim of the project proposal?**

**(at least 2 specifics objectives)**

The specific objectives of the project is

- To facilitate an effective communication in mass teaching and learning using sound system tools
- To maintain learners discipline during extrat curricula activities and providing access to news.

**6. What kind of activities will you achieve to secced your project?**

**(For each specific objective)**

Objective 1: To facilitate an effective communication in mass teaching and learning using sound system tools

- Buying and installing the Sound system tools within the school.
- Training of teachers on the use of sound system tool in teaching and learning
- Teaching more than one class in one time

Objective 2: To maintain learners discipline during extrat curricula activities and providing access to news.

- Providing sound system during extra-curricula activities such as sport, school events
- Installing a radio within the school in order to give to learners access to news.

**7. Please specify the duration of your project**

The project will take 1 month

**8. Costs and financing**
